NPIC/TSSG/RED-1910-69

4 November 1969

MEMORANDUM FOR THE RECORD

SUBJECT : Production Color Enlargers

REFERENCE: (a) [] PAR #176B re Subject Dated 15 October 1969
(b) [] PAR #175B on Color Video Analyzer

1. [] has advised me that ref (a & b) will be presented to the CCB meeting at [] on 18 thru 20 November 1969.

2. He also advised me that he has left copies of these PARS with Mr. [] PSG/RD/PSB. He has discussed the PAR on Production Color Enlargers with him and [] feels that the devices proposed are too limited in performance and print size to be of any interest to him. [] in turn recommended that a modification to the present 10-20-40 enlargers would result in a much more useful instrument at much less cost. In this regard he is planning to survey two of his present 10-20-40 enlargers, which would make them available for such modification if this is indeed feasible. [] informed me that [] implied that he did not have adequate contact with RED to advise them of his thoughts on this subject.

3. [] left copies of each of these PARS with me and requested that we provide him with some feedback concerning our interest in them some time before the CCB meeting on 18 November these to the appropriate RED Branches

Special Assistant for Plans & Applications, RED

Distribution:

Original - Route & File
1 - NPIC/TSSG/RED
